Master's degree: Master in Digital Product Management, Nuclio Digital Innovation School, Spain | 2023

ACCA: Expected 2027

CFI FMVA: Financial Modeling & Valuation Analyst

PROFESSIONAL EXPERIENCE

Senior Business Associate - Finance & Business Operations | LSN Signs

Jan 2025 - Present | Dubai, UAE

- Review and challenge accounting outputs prepared by the accountant, including P&L, balance sheet, trial balance and reconciliation reports; investigate misclassifications, unusual movements and errors before finalising management reporting for leadership.
- Introduced an IFRS 15 cost-to-cost revenue schedule for fit-out projects and posted the resulting monthly adjustments.
- Prepare accruals and other month-end adjustments for supplier costs, subcontractor work and operating expenses incurred but not yet invoiced.
- Prepare monthly cash-flow forecasts for collections, supplier commitments, operating costs, VAT and tax obligations, helping management identify cash requirements and payment priorities.
- Conduct project costing, margin analysis and feasibility assessments; review project scope, cost assumptions, delivery risks and expected margins to support pricing, proposals and commercial decisions.
- Provide reconciliations and supporting records to the accountant and external tax consultant for VAT and UAE corporate-tax work.

Senior Business Services Associate | Pearl Initiative

Oct 2021 - Dec 2024 | Dubai, UAE

- Prepared monthly and annual financial statements in QuickBooks, including the P&L, balance sheet, trial balance, cost allocations and supporting schedules.
- Managed journals, accounts payable and receivable, partner invoicing, collections, bank reconciliations and programme reconciliations.
- Maintained prepayment schedules for medical insurance, office rent, software licences and subscriptions; posted the monthly expense and reconciled the closing balance to the general ledger.
- Maintained the fixed-asset register, posted monthly straight-line depreciation, reconciled it to the general ledger and recorded asset disposals.
- Managed the finance work for annual and programme audits, preparing schedules, reconciliations and supporting evidence directly for auditors. All were completed on time with clean outcomes and no reported findings.
- Prepared budgets, cash-flow forecasts, variance explanations and financial reports for management, the Board, corporate partners and programme stakeholders.

Financial Analyst | Canon

Aug 2016 - Sep 2021 | Dubai, UAE

- Supported the monthly close and prepared P&L, cash-flow and balance-sheet schedules for management reporting and audit.
- Performed customer, vendor, bank and intercompany reconciliations, resolving timing and posting differences and preparing adjustments.
- Applied revenue cut-off controls by checking signed customer delivery notes and, where required, completed installation reports before revenue was recognised under IFRS 15.
- Analysed monthly sales and checked account-manager performance, customer-payment status, posting accuracy and commission calculations.
- Moved sales-performance and commission reporting into Power BI, reducing a five-day manual process to near-real-time visibility. Finance checks remained in place before payouts.
- Worked with project and IT teams during the Palette expense-workflow rollout and Orion ERP cloud transition. Tested account mappings, transaction flows and migrated balances and followed up system issues.
- Supervised finance interns, reviewed their work and provided feedback; also trained employees supporting Canon's Saudi finance operations.

SYSTEMS & TECHNICAL SKILLS

Accounting: Financial statements | Month-end close | Journals | Accruals | Prepayments | AP and AR | Fixed assets | IFRS 15 | Audit | Reconciliations | Trial balance | Balance Sheet

Planning & analysis: Cash-flow forecasting | Budget-to-actual and variance analysis | Project costing | Margin analysis | Working capital
